SUMMARY

Data Science and AI enthusiast with a strong foundation in Python, machine learning, and large language models. Passionate about transforming data into actionable insights and building practical AI-driven solutions. Experienced in exploratory data analysis, predictive modeling, and LLM-based applications. Highly motivated to learn, collaborate, and contribute to real-world problem solving.

EDUCATION

Tribhuvan University | B.Sc. CSIT (2023 – 2026(expected))

SKILLS

- Market Research & Data Collection
- Data Analytics (Python, Pandas, Numpy)
- SQL & Database Management
- Communication & Team Collaboration
- Cloud Tools: AWS (S3, EC2 basics)
- Visualization (Matplotlib)
- Problem Solving & Critical Thinking

PROJECTS

Enhanced QA Chatbot: Built a chatbot using Streamlit, LangChain, and OpenAI API for interactive QA.

Simple LLM: Implemented a lightweight LLM framework for experimentation in Jupyter Notebook.

Next Word Prediction: Created a predictive text model using neural approaches. ANN **Classification – Churn:** Developed an ANN to predict customer churn using structured datasets.

CERTIFICATIONS

- Data Scientist Associate – Datacamp
- The Data Science Course: Complete Data Science Bootcamp 2025
- Machine Learning, Data Science & AI Engineering with Python
